- **Action Items:**

- The PGB Chair, Ms. Katherine Escobar, took an action item to request (for the PGB) that the Open Project (OP) Administrator run a *Special Majority Vote*<sup>1</sup> to approve the Conformance Targets Attribute Specification (CTAS) Project Specification Draft (PSD) as a Project Specification (PS) – in progress.

## 6. Discussion:

- The PGB Chair asked members to consider electing a Vice-Chair to the PGB. Members were asked to share their thoughts on this subject and offered the opportunity to nominate prospective candidates for the vice-chair position. Discussion/nominations via the PGB mailing list, 15 March 2023 suspense. Include **NIEMOpen PGB Vice-Chair** as the subject line of the post. The PGB will take up this subject again at its April 2023 meeting.
- The PGB Chair announced the next regularly scheduled PGB meeting - Tuesday, 11 April 2023, 2-4 PM EST, virtual using MS TEAMS.

<sup>1</sup>OASIS Lightweight Rules: [13.4 Project Specifications](#). A PGB having at least Project Approval Minimum Membership may act to approve any Project Specification Draft as a Project Specification, by satisfying each of the following requirements:

- (a) Written notice of that nomination must be given by the PGB to all those involved with the Project and the Open Project Administrator at least fourteen days prior to initiating a ballot. The ballot must be conducted by a [Special Majority Vote](#) of the PGB. The approval decision is subject to the process, notice and transparency rules set forth in these rules and the content requirements noted below.
- (b) Any machine-executable instructions in a specific computer language (code) that are included in the Project Specification must be composed only of one or more Releases or Group Releases bearing Implementer-Class Licenses.
- (c) Any guidance, descriptions, processes, models for the behavior of a system or service, or other content that is not machine-executable, and is included in the Project Specification, must be composed only of contributions (which may include Releases or Group Releases) previously made to a Project Repository.
- (d) The proposed Project Specification will be subject to review and confirmation of conformance by the Open Project Administrator before the approval ballot is opened.

[13.5](#) Upon successful conclusion of the Special Majority Vote, the Open Project Administrator must give public written notice thereof, which constitutes approval, and thereafter will publish the Project Specification to the OASIS Library.

**bd** [“Special Majority Vote”](#) is a vote in which at least 2/3 (two thirds) of the eligible voters vote “yes” and no more than 1/4 (one fourth) of the eligible voters vote “no”. These numbers are based on the total number of eligible voters in the committee. Abstentions are not counted. For example, in a Technical Committee in which there are 30 Voting Members, at least 20 Voting Members must vote “yes” for a motion to pass; but if 8 or more vote “no” then the motion fails. All Special Majority Votes must be conducted via electronic ballot by the OASIS (OP) Administrator.

- The PGB Chair requested members submit agenda items via the PGB Mailing List for the 11 April 2023 PGB Meeting -15 March 2023 suspense. Include ***April PGB Agenda Topics*** as the subject line of the post.
- Lastly, members were asked to consider a standardized branding/logo to be utilized for the project. The options are:
  - NIEMOpen
  - NIEMOPEN
  - NIEM Open
  - NIEM OPEN
- The NTAC TSC supported the NIEMOpen option. The PGB will take up this subject again at its April 2023 meeting.
